TRAINER'S INSTITUTE

Trainer's Institute (TI) is the go-to professional development resource for local training professionals with 1-3 years of experience. Sessions are designed to introduce new topics as well as continue to build foundational skill sets. These skills are proven to effectively drive performance as participants perform the duties of their everyday roles.

The ultimate goal of TI is to accelerate the development of training professionals and propel their impact on their company training initiatives. TI is designed to be a local, budget friendly series.

Location:

First National Business Park
14010 FNB Parkway, Omaha NE 68154

Typical Session Format:

- Instructor led content delivered through mixed media approaches
- Group discussions and activities
- Application of new skills through creating an actual prototype or project, reverse facilitation, and competencies
- Take-away resources that can be used to transfer knowledge to team members
- Crafting an action plan to use new knowledge and skills in a realistic and immediate way
- Networking with other local professionals
