

# Brandy Hoffert

Brandy has over 12 years of training experience, working with both colleagues and clients in a train the trainer format, both developing content and facilitating learning. Her current role with TEAM Software is as a Business Consultant where she implements software solutions as well as consults current clients regarding utilization and software & business best practice. Brandy regularly works with the Learning & Development team to provide subject-matter expertise in developing content for both internal and external audiences.

Brandy holds a Master of Business Administration degree in Organizational Development. Prior to this, Brandy earned her Bachelor of Arts degree in both Management and Marketing.

This is Brandy's first year serving on the ATD Nebraska Board and is excited to get started. Her prior experience as an Executive Director for an Iowa-based non-profit organization should allow her to jump in rather quickly.
